BIOMETRICS
DEPARTMENT OF DEFENSE

Purpose

**To provide a snapshot of where we are in
providing policy support and strategic planning
that will allow DoD component implementation of
any biometric solution that fits mission needs.**

Positive Identification 

Policy

Develop DoD biometrics policy based on:

- **Public Law 106-246, July 2000**
- **DEPSECDEF Biometrics Memo, dated 27 Dec. 2000**
- **ASDC3I Memo, dated 19 Jan. 2001**

Positive Identification

Current Policy Work

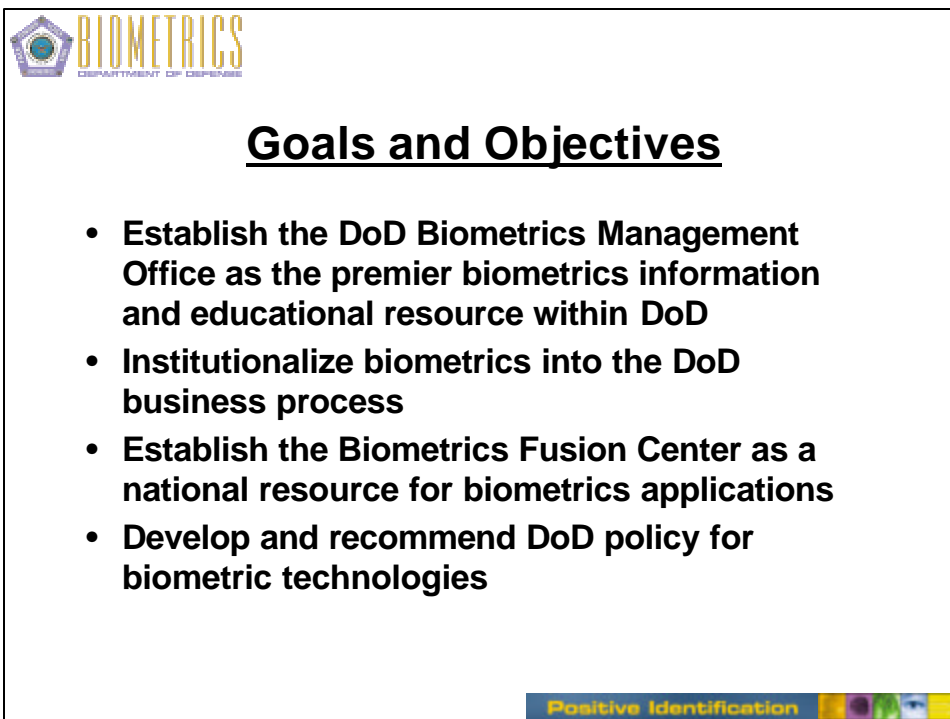

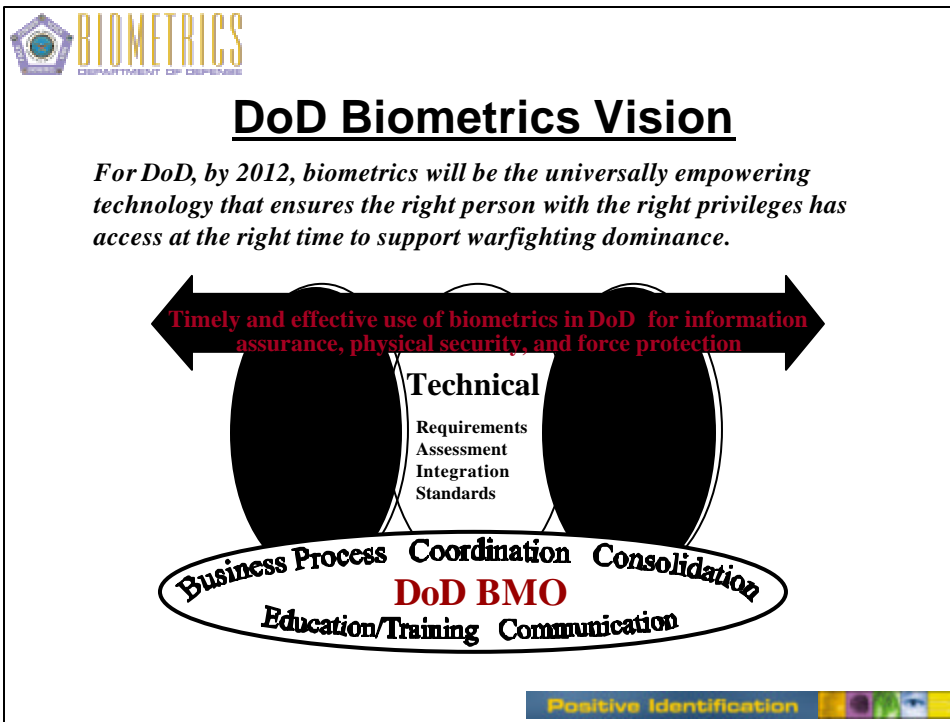

- **Development of a DoD Directive and Instruction for Biometric Technologies (8500.xx)**
 - **Biometrically enable new information systems**
 - **Centralized leadership and coordination**
 - **Application of federal, national, international standards, and common commercial practices**
 - **Compliance with the Privacy Act**
 - **Storage of biometric templates**
 - **No storage at locations not controlled by government**
 - **Encryption or protection of templates in the repository and during transmission**
- **Joint Technical Architecture**

Positive Identification

DEPARTMENT OF DEFENSE

Projected Activity

Short-Term (1 year)	Mid-Term (2-3 years)	Long-Term (4-5 years)
Establish T&E capability	Collect and update customer requirements	Recommendations for weapon systems applications
Establish performance measures	Influence and accept industry standards	Requirements update
Institutionalize BMO & BFC into the force structure	Influence DODD 5000 and 6000 series	Establish interoperability among commercial products for Joint Service use
Develop and recommend policy (DODD & DODI)	Enterprise acquisition	
Introduce biometrics to Service organizations
